Year 2 Computer Science undergraduate at National University of Singapore.
Passionate in computer science and problem solving.
Always seeking out new challenges and looking to learn new skills and technologies.

EDUCATION

National University of Singapore, Singapore   **Aug 2021 - Present**
Bachelor of Computing (Honours) in Computer Science
Cumulative Average Point: 4.88 / 5.00

SKILLS

Languages
JavaScript / TypeScript | HTML | CSS | Java | Go | Ruby | Python

Libraries and Frameworks and Technologies
React | Go Gin | Ruby on Rails | MongoDB | Heroku

PROJECTS

OrgaNiUS   GitHub | Website
Central hub for forming, planning, and organising group work, with web and telegram interfaces. 2-person project, where I worked on both the frontend and backend, but with a greater focus on the backend. Frontend was developed with React and backend was built with Go and MongoDB and the application was deployed on Heroku with Docker.

Task Manager   GitHub | Website
A to-do manager web application with a user login system. Solo full-stack project where the frontend was created with React, and backend supported with Ruby on Rails.

Personal Website   GitHub | Website
My personal portfolio website, done with Angular.

peCar-Parker   GitHub | Website
Website that helps users find parking spots in their area, with a simple search, designed with React.

WORK EXPERIENCE

Grab, Operations (Part-Time)   **Mar 2021 – Jun 2021**
- Handled administration for both new and existing delivery-partners.
- Communicated directly with and managed administrative documentation for 60 delivery-partners daily.

Singapore Armed Forces, Transport Supervisor (3rd Sergeant)   **Feb 2019 – Feb 2021**
- Served as a Section Commander of about 20 Transport Operators.
- Communicated and liaised with multiple external units.
- Awarded Outstanding Soldier of the Month (October 2020) in my unit.
- Awarded Outstanding Overall Performance and Outstanding Overall Conduct.
